Jetpack Support <no-reply@jetpack.com>
to michael.stott

Your site appears to be down

mikesstott.me did not load when Jetpack Monitor last checked on it.

What's happening?

Your site is responding intermittently, or extremely slowly. This can indicate an overloaded, under-powered, or misconfigured server. Your site is probably loading for some users, but not for everyone.

Error reference: 227549196/intermittent

What should you do now?

Start by visiting your site to see if you're able to load it. Jetpack Monitor may have just recorded a momentary glitch that's since been resolved.
